

	22 June 2020	23 June 2020	24 June 2020	25 June 2020	26 June 2020
	SYSTEM BIOLOGY	REGULATORY DAY	DRUG MANAGEMENT/MARKETING	COMMUNICATION DAY	INNOVATION DAY
9.00-11.00	Prof. Corrado Priami <i>Computational Health</i>	Dott. Marco Tuccori <i>The study of the drug effects in the administrative health databases: evaluation of the potential, of the methods and interpretation of the results</i>	Dott. Alberto Bresci , Dott.ssa Antonietta De Rubertis, Dott.ssa Claudia Boldrini <i>Pharmaceutical Management</i>	Prof. Ivano Eberini <i>Training on social media and public communications</i>	Dott. Luca Menichetti <i>Use of molecular imaging techniques in the development of new biomaterials and nanomedicine approaches in the framework of the European research program H2020</i>
11.00-13.00	Dott. Alina Sirbu <i>Machine learning tools for diagnostic and biomarker extraction</i>	Dott. Giovanni Gori <i>Early phase clinical drug development in Italy</i>	Prof. Giuseppe Turchetti <i>Transfer of pharmacological innovation to the market: what is the role of economic sustainability</i>	Dott. Emilia Vaccaro <i>Medical-scientific journalism: from the interview with the expert to the scientific article</i>	Prof.ssa Vittoria Raffa <i>Nanotransducers for cell therapy</i>
14.30-16.30	Dott. Luca Marchetti <i>Computational systems biology: successful test-cases</i>	Dott. Diletta Piacenza <i>Registration of medical devices and pharmaceutical products - company case studies</i>	Dott.ssa Bruna Vinci <i>Pharmaceutical sector governance and pharmaceutical costs.</i>	Prof. Veronica Neri <i>Ethics and scientific communication in new media times. The case of drug communication</i>	Dott. Andrea Chicca <i>Innovation and drug development: from Academic research to spin-off company communication</i>
16.30-18.30				Dott. Alice Matone <i>Science and skepticism: so many doubts when it comes to health</i>	Dott. Raffaella Faggioni <i>Patient centric drug development in the digital era.</i>
